

Keagan Rieder

Game Developer

PROFESSIONAL SKILLS

Programming

- C#, C++, Typescript, JavaScript, HTML, CSS

Software

- Windows 10, 11. Linux Ubuntu
- Microsoft Visual Studio
- Git (Github, Gitlab)
- Adobe Suite (Photoshop, Dreamweaver, Premier)
- MS Office Suite (Access, Word, Excel, PowerPoint)

Libraries/Frameworks

- React
- Gtest
- RestCpp

Technical Knowledge

- The ability to learn new technologies, techniques and software languages quickly

PERSONAL SKILLS

Organization

- Excellent personal organization and exceptional work ethic

Problem Solving

- Linear and structured approach to solving problems

Team Skills

- Communicate respectfully amongst peers and coworkers within team-oriented environment
- Ability to respectfully and clearly explain concepts through written communication

EDUCATION

University of Lethbridge

Sep 2021 to Dec 2026

Bachelor of Science, Computer Science

Co-operative Education Program

Related Courses: Fundamentals of Programming 1 and 2 (C++), Practical Software Development, Data Structures and Algorithms, Computer Architecture, Operating Systems, Artificial Intelligence, Computer Graphics, Intro. to Database Systems, Intro. to Software Engineering, Statistical Methods and Machine Learning

University of Lethbridge

Sep 2021 to Dec 2026

Bachelor of Arts, New Media

Co-operative Education Program

Related Courses: Game Design: Theory & Practice, Interaction Design, Web Design and Development, Programming for Artists, Design Fund. for New Media, Introduction to Animation, 3-D Comp.Modelling & Animation,

COURSE WORK

Issue Tracker (Web Application)

Intro. to Software Engineering | Lethbridge University

- Led a team in developing a web-based issue tracking system
- Designed and implemented backend logic and RESTful API endpoints using C++
- Integrated backend services with a JavaScript frontend using RestCpp
- Collaborated on system architecture and ensured smooth client-server communication

Technical Skills: C++, REST APIs, JavaScript, Object-Oriented Programming, Model View Controller Design, Gtest

Core Strengths: Team Leadership, Collaboration, Problem-solving

Soul Sync (2D Co-op Platformer)

Game Design | Lethbridge University

- Developed a 2D cooperative platformer where players rely on complementary abilities to progress
- Implemented character mechanics emphasizing interdependent gameplay design
- Showcased the project at GCC 2025

Technical Skills: C#, Object-Oriented Design, Godot

Core Strengths: Problem-solving, Teamwork, Game Design

OpenGL City Scope

Computer Graphics | Lethbridge University

- Led a team in designing and developing an interactive 3D cityscape using OpenGL and C++
- Implemented real-time navigation, enabling users to explore the environment through a controllable camera system
- Applied core concepts in linear algebra and trigonometry to handle transformations, rendering, and spatial calculations
- Collaborated on architecture, debugging, and performance optimization to ensure smooth rendering

Technical Skills: C++, Object-Oriented Design, Open GL

Core Strengths: Problem-solving, Team Leadership, Collaboration

Tic-Tac-Toe with AI Opponent

Artificial Intelligence | Lethbridge University

- Built a Tic-Tac-Toe game in C++ featuring an AI opponent using the Minimax algorithm
- Implemented decision-making logic to ensure optimal gameplay strategy
- Designed game flow and user interaction for a seamless experience

Technical Skills: C++, Minimax Algorithm

Core Strengths: Problem-solving

Slime Clicker (Browser Game)

Web Design and Development | Lethbridge University

- Developed a browser-based incremental clicker game where players earn currency and unlock upgrades
- Implemented game logic, progression systems, and interactive UI using JavaScript and HTML
- Designed upgrade mechanics to support scaling difficulty and player

engagement

Technical Skills: JavaScript, HTML, CSS

Core Strengths: Problem-solving, Team Leadership, Collaboration

City Simulation (Processing)

Programming for Artists | Lethbridge University

- Built a procedural city simulation using Processing with interactive controls for dynamic environment changes
- Implemented systems for spawning/despawning vehicles and clouds, and adjusting time-of-day settings
- Designed user input controls to manipulate simulation behavior in real time

Technical Skills: Processing, Procedural Generation

Core Strengths: Problem-solving

Under Us (Text-Based Adventure game)

Software Development | Lethbridge University

- Led a team in designing and developing a modular text-based adventure game in C++
- Applied SOLID design principles to improve code structure, maintainability, and scalability
- Refactored and debugged code to align with best practices and resolve development issues
- Coordinated team efforts, supporting members to meet deadlines and deliver a cohesive final product

Technical Skills: C++, Object-Oriented Design, SOLID Principles, Gtest

Core Strengths: Problem-solving, Team Leadership, Collaboration

PERSONAL PROJECTS

Personal Portfolio (Website)

2024 – Present

- Designed and developed a responsive portfolio website using React and TypeScript
- Showcases projects, technical skills, and experience through a clean and user-friendly interface
- Implemented component-based architecture for scalability and maintainability

Technical Skills: React, Typescript, HTML, CSS

Hobbies & Interests

Video Game Development

Magic the Gathering

Video Games

- Role playing
- Strategy

Skiing

Biking
